Summary

Full-stack web developer skilled in MERN stack, Next.js, and TypeScript. Built production-ready applications including a ride booking platform (Rydex) with Razorpay integration and a food ordering app with real-time order management. Passionate about clean, scalable code and great user experiences. Seeking a Junior Frontend or Full-Stack Developer role.

Experience

R2 Technology — Full Stack Developer Intern *Jan 2026 – Jun 2026*

- Worked as a Full Stack Developer Intern, contributing to Rydex, a full-stack ride -smart and vehicle booking platform built with Next.js, TypeScript, Node.js, Express.js, and MongoDB.
- Built frontend features with Next.js and TypeScript and backend logic with MongoDB and Express.js, including real-time ride request handling and separate Driver and Rider login flows.
- Integrated the Razorpay payment gateway for secure fare collection with automated payment confirmation.
- Debugged and resolved issues across the booking flow, including authentication, vendor dashboard sync, and location search accuracy, under the guidance of the technical lead.

Technical Skills

Frontend: React.js, Next.js, TypeScript, Redux, React Query, HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript (ES6+)
Backend: Node.js, Express.js, MongoDB, MySQL, Sequelize, JWT Authentication, Microservices
Tools & Platforms: Git, GitHub, VS Code, Azure DevOps, Postman, Stripe API, Razorpay
Other: RESTful APIs, CI/CD Pipelines, TDD, Agile Development, WCAG 2.2 Accessibility, Cross-Browser Compatibility

Projects

Rydex — Ride Booking Platform — *Next.js, TypeScript, Node.js, Express.js, MongoDB*

- Developed a full-stack ride booking platform with separate Driver and Rider login flows, real-time ride request handling, and booking management.
- Integrated Razorpay payment gateway for secure fare collection with automated payment confirmation and transaction history.
- Built with Next.js and TypeScript for type-safe, server-side rendered pages ensuring fast load times and SEO optimization.

Food Ordering Application — *MERN Stack (MongoDB, Express.js, React.js, Node.js)*

- Built a full-featured food ordering web app with user authentication, menu browsing, cart management, and order tracking.
- Integrated Stripe payment gateway for secure online transactions with real-time payment status updates.
- Designed RESTful APIs with Express.js and MongoDB, ensuring efficient data handling and optimized query performance.
- Implemented JWT-based authentication for secure user sessions and role-based access control.

Certifications

Introduction to Prompt Engineering with GitHub Copilot — Microsoft
AWS Cloud Practitioner (Essentials) — Amazon Web Services
Introduction to Data Analytics — Simplilearn
NPTEL Certification Course

Education

Bachelor of Technology (B.Tech) — Computer Science and Engineering Graduate 2026
Satyug Darshan Institute of Engineering and Technology, Faridabad (YMCA University)
